

## My Life Before

Filter

Obsess, excess in my head  
Confess, digress in my spread  
Heartless, loveless, on a ledge

My life before... the dreams came to me, it screams  
Just wanna press reset and restart  
Don't wanna feel this hate  
Just take it back, take it back and liberate  
This heart from this mind  
Just wanna press reset... just take it back  
Take it back and start again

Just not wanted, you're misled  
Who were you called, you've gone adrift  
Godless, let's fall and soar west

My life before... the dreams came to me, it screams  
Just wanna press reset and restart  
Don't wanna feel this hate  
Just take it back, take it back and liberate  
This heart from this mind  
Just wanna press reset... take it back  
Take it back and start again

Reset and restart  
Don't wanna feel this hate  
Just take it back, take it back and liberate  
This heart from this mind  
Just wanna press reset... just take it back  
Take it back and start again

Yeah...
