

Obliteration

[Filter](#)

Ashes circle the drain
And now it's all that's left
All that's left of me
Sink my teeth in the pain
Watching the world go numb
And I'm just one step
From obliteration
Just one step
From obliteration
Just one step
From obliteration

I think I'm losing my head
There's nothing left to be said
I think I lost control of my sanity
There's nothing left of my soul
It's my enemy

Ashes circle the drain
And now it's all that's left
All that's left of me
Sink my teeth in the pain
Watching the world go numb
And I'm just one step
From obliteration
Just one step from obliteration
Just one step from obliteration

I'm good at lighting the fire
Until it turns into a pyre
I feel it burning my lungs
I taste the blood on my tongue
Enough is never enough
Until there's nothing

Ashes circle the drain
And now it's all that's left
All that's left of me
Sink my teeth in the pain
Watching the world go numb
And I'm just one step
From obliteration
Just one step
From obliteration
Just one step
From obliteration

Ashes circle the drain
Now that's all that's left of me
Sink my teeth in the pain
Watching the world go numb
Just one step from obliteration

Ashes circle the drain
And now it's all that's left
All that's left of me
Sink my teeth in the pain

Watching the world go numb
And I'm just one step
From obliteration
Just one step from obliteration
Just one step from obliteration
Yeah obliteration
