In my desert
Top of my throne
King of what hurts
I sit here alone
Look at the black plume
As I wait here for you

Only the lonely
Only the lonely will hide
Only the lonely
Only the lonely will die

Pictures of myself
Were all taken down
Statues have crumbled
It's just you all around
I'm here in my sandbox
My cage is unlocked

Only the lonely
Only the lonely will hide
Only the lonely
Only the lonely will die
