

Hallelujah We Shall Rise

Finding Favour

I can almost hear Your voice
I can almost hear Your song
Singing out from the heavens
That it's time to come home

And Hallelujah! We shall rise
And Hallelujah! We shall sing
When we hear Your voice cry
We will wake from the night
And Hallelujah! We shall rise

You will be brighter than the sun
It will be darkness no more
What a day that will be
When we finally meet You Lord

And Hallelujah! We shall rise
And Hallelujah! We shall sing
When we hear Your voice cry
We will wake from the night
And Hallelujah! We shall rise

We will rise above the heavens
We will rise above it all
We will run like a child into Your open arms
When we get to where we're going
We'll have all that we've been waiting for
When we finally reach that place
When we fall before Your throne
There will be no more pain
And all our sorrows will be gone

And Hallelujah! We shall rise
And Hallelujah! We shall sing
When we hear Your voice cry
We will wake from the night
And Hallelujah! We shall rise

When we hear Your voice cry
We will wake from the night
And Hallelujah! We shall rise
