

I Believe In You

Finding Favour

The older I get, the further I go
So many things here that I don't know
I'm trying, Lord, I'm trying

So much drama, so much pain
Sometimes I feel like I'm insane
I'm trying, Lord, I'm trying

This world may try to shake me, yeah
But they don't understand why I believe
This world may try to break me, yeah
But I will say with every breath I breathe

I believe in You
The One that walked on water
The One that calmed the seas
You opened blinded eyes
I believe
Your miracles and mercies
Your promises are true
You are the Son of God
I believe in You

I know there'll be days when I fall hard
I'll have stains and I'll have scars
I'm holding, to You, I'm holding

This world may try to shake me, yeah
But they don't understand why I believe
This world may try to break me, yeah
But I will say with every breath I breathe

I believe in You
The One that walked on water
The One that calmed the seas
You opened blinded eyes
I believe
Your miracles and mercies
Your promises are true
You are the Son of God
I believe in You
Lord, I believe in You

This world may try to shake me
They don't understand why I believe
This world may try to break me
But I will say with every breath I breathe

I believe in You
The One that walked on water
The One that calmed the seas
You opened blinded eyes
I believe
Your miracles and mercies
Your promises are true
You are the Son of God
I believe in You

Lord, I believe in You
Lord, I believe in You
Oh, I believe in You
Lord, I believe in You
