

What We Have Is Now

Finding Favour

Where did it go? When did we all forget?
Time ticks away and we can never get it back again

Before this moment is a memory, I just wanna take it all in
I've let it go by but I'll never let it go again, no

What we have is now, what we have is now
What we have is now, what we have is now
Breathe the moment in, breathe it right back out
Everyday, make it count
What we have is now, what we have is now

What lies ahead, I have no way to see
But all that I need, is right here in front of me

Before this moment is a memory, I just wanna take it all in
I've let it go by but I'll never let it go again, no

What we have is now, what we have is now
What we have is now, what we have is now
Breathe the moment in, breathe it right back out
Everyday, make it count
What we have is now, what we have is now

So reach out and grab what's real before it's gone
You gotta hold on tight until you can't hold on
So reach out and grab what's real before it's gone
And just hold on tight until you can't hold on
Time will pass you by if you let it
Seize the day, the moment, the second
Time will pass you by if you let it, oh!

What we have is now, what we have is now
What we have is now, what we have is now
Breathe the moment in, breathe it right back out
Everyday, make it count
What we have is now, what we have is now

So reach out and grab what's real before it's gone
(What we have is now, what we have is now)
You gotta hold on tight until you can't hold on, o-oh
(What we have is now, what we have is now)
So reach out and grab what's real before it's gone
(What we have is now, what we have is now)
And just hold on tight until you can't hold on
(What we have is now, what we have is now)

Time will pass you by if you let it
Seize the day, the moment, the second
Time will pass you by if you let it
