

Lock Me Up

Finger Eleven

There was a hole in the map, I couldn't tell you where
There was a plastic pin that held a picture there
And it was saving a time and a place for you
But it just won't do what it used to do

Some will fall away
And some are always coming back around

So lock me up inside your head
'Cause I wanna be what you've got your mind on
Don't let the flames come to an end
Keep it burning
Yeah, keep a light on

There was a track that made your heart swell with the song
And I'm trying to move you, but you're trying to move on
And I'm racing to figure the answer out
Oh, don't cut out on me now

You let me in, so don't you let me down

So lock me up inside your head
'Cause I wanna be what you've got your mind on
Don't let the flames come to an end
Keep it burning, keep a light on

So lock me up
So lock me up inside your head

So lock me up inside your head
'Cause I wanna be what you've got your mind on
Don't let the flames come to an end
Keep it burning, keep a light on

So lock me up inside your head
So lock me up
So lock me up inside your head
Lock me up
