

Magical

Fingertight

For you

And any minute we'll be sitting at the bar
And for a instant we'll forget who we are
And it happened
And when it does its magical
And it happened
And when it does its mystical

Cuz' im not afraid any-more
Cuz I can feel you next to me
Im not afraid any-more

And any time when innocence should be my right
Im in a battle between alcohol and my life
And I still feel like you're here with me
And its magical
