

Confidence

Finish Ticket

Confidence, don't
Let me down
I need something new
From you, don't just
Take me home

Stupid nervousness, they know
In everything just starts to show, oh
You say a word
But nothing's heard
You turn around and walk away

Yeah, confidence, don't let me down
I need something new
From you, don't just take me home
Yeah, confidence, don't let me down
I need something new
From you, don't just take me home

This lack of confidence, it shows
The butterfly feeling it grows, oh
Little voice inside
Was never on your side
You begin to realize

Yeah, confidence, don't let me down
I need something new
From you, don't just take me home
Yeah, confidence, don't let me down
I need something new
From you, don't just take me home

Ride
This wave, and
Feel free to speak your mind, and
Ride
This wave, and don't
Don't forget

Confidence, don't let me down
I need something new
From you, don't just take me home
Yeah, confidence, don't let me down
I need something new
From you, don't just take me home
