

It's hard to say that everything is where it should be
I still believe in this
I tried to be what I felt was necessary to succeed
Now I proceed

I know you, you're worried, but can't you see
This is no, no ending but the beginning, and
You are the one I want, everyday, everyday
This is the thing I need, anyway, anyway,
So forget them and be what you please.

It's hard to tell what the future has in store for me
I know you have your doubts

I know you, you're worried, but can't you see
This is no, no ending but the beginning, and
You are the one I want, everyday, everyday
This is the thing I need, anyway, anyway,
So forget them and be what you please.

Yeah, you will see what I can be

You are the one I want, everyday, everyday
This is the thing I need anyway, anyway

This is all I need, so back the hell up
This is my one plea, so please dont fuck it up
yeah be what you please.
