

Out of a Dream

Finish Ticket

Are you gonna be mine, mine, mine
And stick to me like glue?
But for the rest of my whole damned life
You know I want you too
And if you wanna feel love and sympathy, rely on me
And I'll show you all the things that make my world turn 'round

I can give you my time, time, time and everything I have
If only we can rewind and get back all those days we left behind
You can give me your name or you take mine
We struggle to survive
Tell me all of the things that make your day go by
Oh, oh, oh
There is no in-between, she said so
And it feels out of a dream

Oh, no
There's no tearing us apart
We were meant to be the lightning and thunder of the storm
We found what they're looking for
And no, there's no tearing us apart
We were meant to be the lightning and thunder of the storm
We found what they're looking for

I can give you my time, time, time and everything I have
If only we can rewind and make up for those days we left behind
You can give me your name or you take mine
We struggle to survive
Tell me all of the things that make your day go by

Oh, oh, oh
There is no in-between, she said so
And it feels out
Yeah, it feels out
Out of a dream

And there's no tearing us apart
We were meant to be the lightning and thunder of the storm
We found what they're looking for
And no, there's no tearing us apart
We were meant to be the lightning and thunder of the storm
We found what they're looking for
