

# Black Curls

Fink

And I get tangled up and under  
I get tangled up and under  
Black curls yeah  
Oh up and under  
Black curls  
Black curls  
Black curls  
Black curls oh yeah

And I reach out in the dark  
I reach out in the dark  
I reach out in the dark  
Black curls  
I reach out in the darkness and the silence  
For the black curls  
For me  
For me  
Black curls  
Black curls

And I know it's certain  
And I know it's certain we will meet  
I know it's certain we'll meet again  
Meet again

I remember baby, I'm like  
In my arms you fell  
That night, that night  
Black curls

Alive that night in my arms  
Oh black curls  
Felt that night, as you did  
You did  
Black curls

And the flame flickers  
And the amers glow  
Flame flickers  
And the amers glow  
And the flame flickers  
And the amers glow  
And the flame flickers  
And the amers glow  
Black curls  
Black curls

I get tangled up and under  
I get tangled up and under  
Black curls  
Black curls
