

# She Was Right

Fink

Oh she left me  
Yes she did  
She was right  
She was right  
She was right to do it  
And she did

And I think about her  
With the music getting louder  
To the whisky  
And to the powder

She was right  
She was right  
She was right  
She was right  
Oh lord

Oh she was right  
To leave me  
She was right  
To leave that night  
To do it when she did  
Oh yeah

She turned her back on me  
And was right for the last time  
Yeah

She was right for the last time  
Oh yeah  
Oh yeah
