

My blinded eyes

Finley

From you I will hide somewhere, then I'll stay
Stuck in silence here, fixing all the things you do
Observing every move you make, what you think
In an ordinary day
I'll be invisible to be always by your side
My blinded eyes can take a picture of what I can't see
'cause I've collected all the pieces of your secret life
And even if the distance doesn't help my memory
I'll find a perfect place for me and you in my head In my
head..
Until you wake up today,
I'll be there waiting for the morning sun
Distracted I'll be looking for anything
That reminds me of your smile
It's such a stupid thing but I can't stand my loneliness
My blinded eyes can take a picture of what I can't see
'cause I've collected all the pieces of your secret life
And even if the distance doesn't help my memory
I'll find a perfect place for me and you in my head
My blinded eyes can take a picture of what I can't see
'cause I've collected all the pieces of your secret life
And even if the distance doesn't help my memory
I'll find a perfect place for me and you in my head
I can see me and you in my head
I can see me and you in my head
I can see me and you in my head
I can see me and you in my head
