

Your Hero

Finley

Human race seem so amused
By the news of everyday
We got suffocated, paralyzed
There's no reaction
We got used to being
Surrounded by disaster

By this time to face the truth

Now it's time to make a move
Your hero can save me

Cause we don't live in happy ending movies

Your hero ooh

Only tragedy is around

Name these countries
We consider far from home
But they're nearest than we knew
Now we gotta make a move

Just because
Your hero can save me

Cause we don't live in happy ending movies
Your hero (your hero)
Can save the world
From all the times
We crossed the lines
And made the same mistakes

your hero
Your hero (your hero)
Can save me (can save me)
Cause we don't live in happy ending movies
Your hero (your hero)
Can save the world

From all the times
We crossed the lines
And made the same mistakes

Your hero
Your hero
