

# I Want You to Love Me

Fiona Apple

I've waited many years  
Every print I left upon the track, has led me here  
And next year, it'll be clear  
This was only leading me to that  
And by that time, I hope that  
You love me  
You love me

I move with the trees, in the breeze  
I know that time is elastic  
And I know when I go  
All my particles disband and disperse  
And I'll be back in the pulse  
And I know none of this, will matter in the long run  
But I know a sound, is still a sound around no one  
And while I'm in this body, I want somebody to want

And I want, what I want and I want  
You to love me  
You

And I know that you do  
In the dark, I know that you do  
And I know, that you know that you got  
The potential to pick me up  
And I want you to use it  
Blast the music  
Bang it, bite it, bruise it  
Whenever you want to begin, begin  
We don't have to go back to where we've been  
I am the woman who wants you to win, and I've been  
Waiting, waiting for  
You to love me  
You  
You
