

# Your Molecular Structure

Fiona Apple

Your molecular structure is really somethin' fine  
A first-rate example of functional design  
Those cosmic undulations are steady comin' through  
Your molecular structure baby, me and you

Your cellular organization is really something choice  
Electro-magnetism 'bout to make me lose my voice  
Got all my circuits open, my system's readin' "go"  
Your cellular organization, baby, stop the show

Your molecular structure is really somethin' swell  
A high-frequency modulated Jezebel  
Thermodynamically, you're gettin' to me  
Your molecular structure baby, ooh wee
