

## Out Of Time

## Fire From The Gods

Suffocate  
At the end of my rope I start to choke  
Gravity pulls, I let go  
Borderline, out of time  
Facing the end

I sold myself a truth, an illusion  
I believed what they said  
That I'm useless  
I sold myself a truth, an illusion  
I believed what they said  
That I'm worthless

Running out of time  
The last array of light  
If I close my eyes  
Hold on I won't cross the line

Recreate the scenario plays back in my head  
Reminisce on the choices I've made  
In a space between a blink and tear  
Overcome my darkest fear  
Hold on

I sold myself a truth, an illusion  
I believed what they said  
That I'm useless  
I sold myself a truth, an illusion  
I believed what they said  
I'm not worthless

Running out of time  
The last array of light  
If I close my eyes  
Hold on I won't cross the line

Running out of time  
The last array of light  
If I close my eyes  
Hold on I won't cross the line

My life flashed before my eyes  
Paralysed as time passes by  
All the mistakes the regrets the pain and all the lies  
I fall  
It's final boarding call another soul left behind  
If I was a little bit better  
A little bit shaper I'd fall in line

Running out of time  
The last array of light  
If I close my eyes  
Hold on I won't cross the line

Running out of time  
The last array of light  
If I close my eyes

Hold on I won't cross the line  
Hold on I won't cross the line
