

As you dey see am so  
I just dey live life ooo  
Make you no go think am o  
I no dey find wahala  
I just dey go jeje in my zone  
I want to think and grow  
They want to drink and smoke  
My food never done  
They want to come close and tiff my stove

The life I live comes with enemies  
I hear my spirit and it's telling me  
I gotta be careful  
To be careful, always  
Make dem dey love me from afar

E pay me o, e pay me o  
E pay me o, e pay me o  
E pay me o, e pay me o  
Make dem dey love me from afar

E pay me o, e pay me o

Make dem dey love me from afar

Yeah Babylonian, pharisees and narcissists  
Don't come close that's what the choppa says  
I know your insecurities are always hard to play  
You can't be on your own  
Riding everybody's wave  
Why you so two faced  
Mehn it's not too late  
Imma put you straight  
I don't move this way  
Won't sugar coat for a bag full of blueface  
Geng geng for life  
I don't need new friends  
You lads moving mad and no be today  
I be wan clear una so probably today  
Right time I wrap things for things I have to say  
Don't even try to act like you been knew me  
Stars don't try to shine they just do it  
Deep blue sea and hell I've been through it  
Real life champion  
God's plan is too much for you ordinary  
People still love me

The life I live comes with enemies  
I hear my spirit and it's telling me  
I gotta be careful  
To be careful, always  
Make dem dey love me from afar

E pay me o, e pay me o  
E pay me o, e pay me o  
E pay me o, e pay me o

Make dem dey love me from afar

E pay me o, e pay me o

E pay me o, e pay me o

E pay me o, e pay me o

Make dem dey love me from afar
