

back n forth

Fireboy DML

Sometimes, I know it
Sometimes, I don't know how to show it
But somewhere at the back of your mind
I hope that you know that I love every single moment with you
Sometimes I say it
But sometimes I don't know how to show it
But somewhere at the back of your mind
I hope that you know that I love every single moment with you

We found love in Ojuelegba ('Legba)
The kind love wey we go remember
The kind love wey you no fit end am
Jejẹ make you do me tender
Take me to Kenya, tell me nakupenda ('Penda)
Close to my heart like a pendant
Baby mo gbe e sori (Sori)
Mo ni mo gbe e sori (Sori)
You toxic I like it like that
If you call my line, I'm calling right back
Tell me what you wanna do tonight
I'm free tonight, I wanna be with you tonight (Ah-ah)
And even when I dey doubt am
Even when I am still in denial, oh
Na only you dey light up my fire, oh
Na only you I desire oh, but sometimes

Sometimes I don't know how to show it
But somewhere at the back of your mind
I hope that you know that I love every single moment with you
Sometimes I say it (I say, I say)
But sometimes I don't know how to show it
But somewhere at the back of your mind
I hope that you know that I love every single moment with you

What else should I do to let you know, how I feel inside for you?
Inside for you
Can you feel the love? Inside, inside
Ka jo ma back and forth and back and forth
B-b-back, soole
Back and forth, you and I
We could be, we could be so much more, yeah
Şe temi, ma se ti ẹ
Make we dey go
Back and forth and back and forth
B-b-b-b-back, soole
I wanna show you, I wanna show
And even when I dey doubt am
Even when I am still in denial oh
Na only you dey light up my fire, oh
Na only you I desire, oh
But sometimes

Sometimes I don't know how to show it
But somewhere at the back of your mind
I hope that you know that I love every single moment with you
Sometimes I say it (I say, I say)
But sometimes I don't know how to show it

But somewhere at the back of your mind
I hope that you know that I love every single moment with you

Back and forth and back and forth
B-b-b-back, soole
