

Ecstasy, that is what I'm feeling when you're next to me
Tell me what to do just like a recipe, you know what you're doing to me mentally
But eventually I want it sexually, my hands on your body like the world can see
You can call it love or call it destiny, but when I'm with you, baby, it's ecstasy

Mmm-mmm, all the butterflies wey dey my belly when it's 'bout to fly
Na the paradise wey dey your body I dey visualize
And I don realize when I'm lookin' deep into your eyes
All I feel is ecstasy
Ecstasy

Ogologo, baby, I been calling your phone
Put your body on my body and tell me I be your own
The feeling you be giving me be driving me outta zone
See my medula oblongata e dey scatter go
Ighotago you cannot do this all alone
If I touch your body, you go dey miss me when I'm gone
Cannot do this all alone, cannot kiss me through the phone
Wanna let you know every day I wan dey make you moan
[?], baby, jowo mai lo
Hold me like a cover, press me like a piano
I been on the road and now I've been on my own
I just need some

Ecstasy, that is what I'm feeling when you're next to me
Tell me what to do just like a recipe, you know what you're doing to me mentally
But eventually I want it sexually, my hands on your body like the world can see
You can call it love or call it destiny, but when I'm with you, baby, it's ecstasy

Mmm-mmm, all the butterflies wey dey my belly when it's 'bout to fly
Na the paradise wey dey your body I dey visualize
And I don realize when I'm lookin' deep into your eyes
All I feel is ecstasy
Ecstasy

Ecstasy
