Favourite song

Let's pretend it's 199something
With bottles popping
You and I we could be starting something
You know what's supping
Close your eyes and get it on
Make I play your favourite song

Let's boogie and get it on
Let's boogie and get it on
Let's boogie and get it on
Let's boogie and get it on
Let's boogie and get it on

Su momi bamijo, bamijo mami
Go down and drop it low, drop it low for me
No need to tell me so cos I know this is your favorite song
