Fireboy DML

She feeling the juice
Feeling the sauce
Look at my shoes
Christian dior
Whatchu gonna do?
Who you looking for?
I never lose
Glory to God
Yeah

I'm talking dollars and pounds
We spend everyday
If you're dulling me now
Please get out of my way
I'm on a new level now
I'm on a new level now
So I pull up unannounced
Fly my mama away
Shey ka lo si france
Ka lo s'holiday
I'm on a new level now
Oh I'm on a new level now

Cause I remember
When I dey hustle inside Lagos I remember
Me and my brothers omo we been dey together
All the suffer wey we suffer for the cheddar
Never say never oh
When I remember
All the motherfucking liars and pretenders
Dem dey try me but I tell them back to sender oh
Now I did it and I'm gonna live forever
Oh forever oh
Yeah

She feeling the juice
Feeling the sauce
Look at my shoes
Christian dior
Whatchu gonna do?
Who you looking for?
I never lose
Glory to God

People come, people go
But I no dey complain
Cause I'm okay as long as the money dey
I keep my family close
Cause they no dey complain
Dem go dey in the rain or the sunny day
I'm outchea in the studio
Working all day through the pain
Man, I really went from hustling for free bedspace
To investing in real estate

Cause I remember
When I dey hustle inside Lagos I remember

Me and my brothers omo we been dey together
All the suffer wey we suffer for the cheddar
Never say never oh
When I remember
All the motherfucking liars and pretenders
Dem dey try me but I tell them back to sender oh
Now I did it and I'm gonna live forever
Oh forever oh
Yeah

She feeling the juice
