

# God Only Knows

Fireboy DML

For a while I've been thinking  
Why did I ever push you away  
My eyes to the ceiling  
Praying to God to bring you my way  
What the hell was I thinking  
I don't think I was thinking  
It's all messed up inside of my head  
It's all messed up inside of my head

God only knows  
If I'll ever see you again  
God only knows  
If you still know my name  
God only knows  
Heaven only knows  
God only knows  
If I'll ever see you again  
God only knows (God only knows)

If you could just give me one more chance  
I promise I'll be a better man  
Girl, I know say I don't fall your hand  
Many times but you still understand  
For my mind, for my mind  
I been think say I get time  
All messed up inside of my head  
It's all messed up inside of my head

God only knows  
If I'll ever see you again  
God only knows  
If you still know my name  
God only knows  
Heaven only knows  
God only knows  
If I'll ever see you again  
God only knows (God only knows)  
God only knows  
If I'll ever see you again  
God only knows  
Heaven only knows
