

Took my heart and my soul, gave it all to you
Got my knees on the floor, looking up to you

And I will never be sure if you really do
But if you open the door I will come to you

'Cause, I've been ready, yes, I've been ready
And I've been waiting all my life for you to say this
Call me your baby, I wanna be with you
With you

I'd be hanging too low, if I were a fruit (Yeah)
I've been there for too long, waiting just for you (Waiting just for you)

And I will never be sure if you really do
But if you open the door I will come to you

'Cause, I've been ready, yes, I've been ready
And I've been waiting all my life for you to say this
Call me your baby, I wanna be with you
With you

'Cause, I've been ready (Woo), yes, I've been ready
And I've been waiting all my life for you to say this (Woo)
Call me your baby, I wanna be
Yes, I've been ready
Yes, I've been ready
And I've been waiting all my life for you to say this (Woah)
Call me your baby
