

Someone

Fireboy DML

Take my time
Don't take my life
Do this right
It'll change your life

Smoke and ganja
That's you and I
Be my karma
Be my light

Out of sight
Out of mind
Stay the night
No oversight

My Delilah
Ice and fire
I'm in denial

But if you leave
What happens to me?
Where do I find someone, someone
Someone to love me?
Girl, if you leave
What happens to me?
Where do I find someone, someone
Someone to love me?

Someone
Someone
Love me right

Any time
Day or night
Leave tonight
Or stay for life

I remember when I made you cry
You'll get better

But if you leave
What happens to me?
Where do I find someone, someone
Someone to love me?
Girl, if you leave
What happens to me?
Where do I find someone, someone
Someone to love me

Someone
Someone
Love me right
