

Falling in Love

Firefall

Sweet inspiration, you've got me burning
I can't believe my heart won't stop turning
You've got me reaching for my emotions
When we're together it feels so right

And I'm falling in love
You should know by now that you've taken my heart
Falling in love
Cause I've found someone I can call my own

You I depend on
You I can lean on
Nobody ever made the need to love strong
And if tomorrow
There'll be a reason
To live without you, I couldn't go on

And I'm falling in love
You should know by now that you've taken my heart
Falling in love
Cause I've found someone I can call my own

With you
I'm falling in love
With you
Falling in love

Love, love, love

You I depend on
You I can lean on
Nobody ever made the need to love strong
And if tomorrow
There'll be a reason
To live without you, I couldn't go on

And I'm falling in love
You should know by now that you've taken my heart
Falling in love
Cause I've found someone I can call my own
Falling in love
You should know by now that you've taken my heart
Falling in love
Cause I've found someone I can call my own
