

Fire In My Eyes

Fireflight

Feeling solid cause I've finally
Got my feet on the ground now
You rescued me with gravity
I was upside down
(down)

I've got a fire in my eyes
I'm burning brighter than the sunlight
You orchestrated my escape
Now I'm awake
I feel alive for the first time
You ignite the fire in my eyes

Used to live my life locked up
Inside a room with no doors
(before)
You found a window, You broke it
And now I won't be contained anymore

I've got a fire in my eyes
I'm burning brighter than the sunlight
You orchestrated my escape
Now I'm awake
I feel alive for the first time
You ignite the fire in my eyes

Oh, I know You are the reason I can breathe
Oh, I know You are the reason I am free

I've got a fire in my eyes
I'm burning brighter than the sunlight
You orchestrated my escape
Now I'm awake
I feel alive for the first time
You ignite the fire in my eyes
