

# Keep Your Head Up

Fireflight

I hear you say you're broken  
I hear you say you're barely  
Holding on, holding on  
I can see you've fallen  
I can feel you've started  
Letting go, letting go

I can't say it's gonna get easier  
Every day fighting to keep hope alive  
Keep your head up, my child  
Through it all you're never gonna walk alone  
I'll take every step, every fall by your side  
Keep your head up, my child

As the road gets harder  
It only makes you stronger  
Pushing on, pushing on  
And in your darkest hour  
When life beats you down  
I'll carry you, I'll carry you

I can't say it's gonna get easier  
Every day fighting to keep hope alive  
Keep your head up, my child  
Through it all you're never gonna walk alone  
I'll take every step, every fall by your side  
Keep your head up, my child

When you're on the edge  
I will hold you tight  
When you're all alone  
I can help you fight  
I will hold the torch  
In the blackest night  
For you

And there's no shame in letting go  
I'll hold onto you  
I'll never stop holding onto you  
Keep your head up, my child

I can't say it's gonna get easier  
Every day fighting to keep hope alive  
Keep your head up, my child  
Through it all you're never gonna walk alone  
I'll take every step, every fall by your side  
Keep your head up, my child

Keep your head, keep your head up, my child  
Keep your head up, my child
