

# Ready For More

## Fireflight

This life's not over  
I've got the pedal down to the floor  
I'm ready for more  
Who's ready for more?

I'm on the edge tonight  
Two lonely headlights  
I cannot sleep until I'm back where I belong  
It's true I tried to run  
I said that I was done  
But now I see that I've been silent for too long

Just keep driving  
I'm coming back

I roll the window down  
To drown the silence out  
But nothing's louder than the voices in my mind  
They say, "Don't waste your breath  
'Cause you've got nothing left  
You missed your shot and now you can't turn back the time"  
The pleasure and the pain  
The lightning and the rain  
I've seen it all and I've come out the other side  
This storm I'm driving through  
Is in my rearview  
And now I look to see the first light of the dawn

Just keep driving

I'm coming back  
No turning back  
This fight's not over  
I've got the pedal down to the floor  
The tank's filled up, I'm ready for more  
I'm coming back  
No turning back  
This life's not over  
I've got the pedal down to the floor  
I'm ready for more  
Who's ready for more?

I roll the window down  
To drown the silence out  
But nothing's louder than the voices in my mind  
They say, "Don't waste your breath  
'Cause you've got nothing left  
You missed your shot and now you can't turn back the time"  
The pleasure and the pain  
The lightning and the rain  
I've seen it all and I've come out the other side  
This storm I'm driving through  
Is in my rearview  
And now I look to see the first light of the dawn

Just keep driving  
I'll just keep driving

I'm coming back  
No turning back  
This fight's not over  
I've got the pedal down to the floor  
The tank's filled up, I'm ready for more  
I'm coming back  
No turning back  
This life's not over  
I've got the pedal down to the floor  
I'm ready for more  
Who's ready for more?

Who's ready for more?  
Who's ready for more?  
Who's ready for more?

Just keep driving

I'm coming back  
No turning back  
This fight's not over  
I've got the pedal down to the floor  
The tank's filled up, I'm ready for more  
I'm ready for more  
I'm coming back  
No turning back  
This life's not over  
I've got the pedal down to the floor  
I'm ready for more  
Who's ready for more?  
I'm ready for more

Who's ready for more?
