Put it out now, you've set me on fire
Put it out
Rising up every time I'm beside you
Rising up like a wildfire
Put it out

Oh, it's dangerous, one spark can set it off
Your skin against my skin as we're taking off
A vision of our future, buried in my chest
A vision of our future as I'm getting undressed

Put it out now, you've set me on fire
Put it out
Rising up every time I'm beside you
Rising up like a wildfire
Put it out now, you've set me on fire
Put it out
Rising up every time I'm beside you
Rising up like a wildfire
Put it out

Oh, I know you said in time it will all change
But flames burns on in countless different shapes
Never stays the same, never stays the same

A vision of the future, ending this game

Ooh, ah, don't you know?
Like a fire grows
Ooh, ahh, don't you know?
Wildfire
Ooh, ahh, don't you know?
Like a fire grows
Ooh, ahh, don't you know?
Wildfire

Put it out now, you've set me on fire
Put it out
Rising up every time I'm beside you
Rising up like a wildfire
Put it out now, you've set me on fire
Put it out
Rising up every time I'm beside you
Rising up like a wildfire
Put it out

Like a fire grows
Put it out
(Oh, like a fire grows)
Put it out
And I know you said in time it will all change
But flame burns on in countless different shapes
