

Home Is Where The Heart Is

Firehouse

Do you remember when we were only kids
Knew everyone in our neighborhood and swore that we would never
forget

Well time flies and the years go by, but memories never fade
I've been gone much too long, gotta get back there someday

But my travelin' days ain't over yet
And no matter how far away
There's one thing I can't forget

Home is where the heart is
But I'm always on the run
Home is where the heart is
Though my journey's just begun
Home's where the heart is

We used to hang out through the day and party all night long
I never thought I'd go away from the place where I belong
But here I am on the road again and my love is miles away
I've been gone much too long, gotta get back there someday

But my travelin' days ain't over yet
And no matter how far away
There's one thing I can't forget

No matter how far away
The one thing I can't forget
