Home Is Where The Heart Is

Firehouse

Do you remember when we were only kids Knew everyone in our neighborhood and swore that we would never forget

Well time flies and the years go by, but memories never fade I've been gone much too long, gotta get back there someday

But my travelin' days ain't over yet And no matter how far away There's one thing I can't forget

Home is where the heart is But I'm always on the run Home is where the heart is Though my journey's just begun Home's where the heart is

We used to hang out through the day and party all night long I never thought I'd go away from the place where I belong But here I am on the road again and my love is miles away I've been gone much too long, gotta get back there someday

But my travelin' days ain't over yet And no matter how far away There's one thing I can't forget

No matter how far away
The one thing I can't forget
