

Lover's Lane

Firehouse

She drives me crazy, she drives me wild
But when she tries to satisfy me when I'm drivin'
We need to stop somewhere for a while
I'm gettin' ready, I feel the need for speed
Can't slow down 'til she gives me what I need

I know just the place that we can go
Hop in the back, we can be all alone
Lock the doors and hold on tight
We're gonna have a good time tonight

We're going down, down, down to Lover's Lane
That's where she drives, drives, drives me insane
I'll take her down to down to Lover's Lane
We're going down, down, down to Lover's Lane

My motor's runnin', yeah it's gettin' hot
I get overloaded, overheated, could explode
I can't believe it, we just gotta stop

I know just the place that we can go
Hop in the back, we can be all alone
Lock the doors and hold on tight
We're gonna have a good time tonight
