

## Elevator Action

Fireside

I'm just running around  
It's so hard to be on time  
I keep falling down  
Nothing left for me to find  
But when she comes around  
Then it feels a little better for a while

Sometimes I dream that you're alive  
Sometimes I dream that you're still here, that you're alive

You're evil now  
Well what was that all about  
Not a sign  
Not a word and then goodbye  
But then she comes around  
And it feels a little better for a while

Sometimes I dream that you're still here, that you're alive
