

Woke Up Down

Firewater

Wake me, break me, take me to your leader
Memorizing, regurgitating, isn't learning wonderful
I can take it
I think I can take it

Preach me, bleach me, teach me to be a robot
My life is a series of accidents and irritants
But I'm waiting
I'm still waiting

And the stars will never shine upon your ill-computed plans
You're just a shadow in the mirror
Just a shadow
I woke up down
I woke up down

Fail me, jail me, feed me into your system
You look alot like aliens but you're acting just like animals
In a movie
And this isn't a movie

Because the stars will never shine upon your ill-computed plans
You're just a shadow in the mirror
Just a shadow
I woke up down
I woke up down
I woke up...
