

Days of Grace

Firewind

A silent whisper inside my head
I still remember all the sorrow that I felt
Time's so precious, news of the day
The world was crumbling
And your dreams just fade away

You made up your mind
You won't back down
And the will to fight
Shows you the way

Days, I wanna face the days with grace
And be proud of all my ways
I won't find the end of the world
Fears, the ones I've had for all these years
But I know they'll disappear
If I only take one day at a time

All my dreams may not come true
But one thing pulls me through
I get to spend my time with you

Your gentle laughter, makes me forget
The way you're smiling, and your way of no regrets
I'm a believer, when I see you
I dread the time that comes
When we have to say goodbye for good

You made up your mind
You won't back down
And the will to fight
Shows you the way

Days, I wanna face the days with grace
And be proud of all my ways
I won't find the end of the world
Fears, the ones I've had for all these years
But I know they'll disappear
If I only take one day at a time

All my dreams may not come true
But one thing pulls me through
I get to spend my time with you

Days, I wanna face the days with grace
And be proud of all my ways
I won't find the end of the world
Fears, the ones I've had for all these years
But I know they'll disappear
One day at a time

Oh, I wanna face the days with grace
I spend my time with you

Days of grace
