

Devour

All that glitters isn't gold
When the surface starts to fade
You can stack your treasures high
But your value can't be weighed

Always reaching higher goals
The essential left behind
Make up your mind

Devour
The claims increasing day by day
Devour
Addiction's forming our way
Devour
We're lying, to be satisfied
At last, we'll fall deep inside

You lead a low life at the top
If you live it all alone
You will fall if you don't stop
And you'll leave an empty throne

Always reaching higher goals
The essential left behind
Make up your mind

Devour
The claims increasing day by day
Devour
Addiction's forming our way
Devour
We're lying, to be satisfied
At last, we'll fall deep inside

The wilder you rise
The harder you fall

Devour
The claims increasing day by day
Devour
Addiction's forming our way
Devour
We're lying, to be satisfied
At last, we'll fall deep inside
