

Fallen Angel

Firewind

Fallen angel

Betrayal in your mind
Sinners prayer, do not trust your kind
The devil's favorite child
With a purpose that doesn't die

Conquer, divide
The bringer of demise
A fallen angel from the sky
Deceive, deny
By dawn you bring us down
But you're a king with no crown

It's temptation

A lesson never learned
If you gamble, you will crash and burn
You hide your inner lies
Kiss of Judas before sunrise

Conquer, divide
The bringer of demise
A fallen angel from the sky
Deceive, deny
By dawn you bring us down
But you're a king with no crown

It's temptation

Angel, there's no light around you
Angel, the devil's child
Angel, you will perish alone

Conquer, divide
The bringer of demise
A fallen angel from the sky
Deceive, deny
By dawn you bring us down
But you're a king with no crown

Fallen angel
You'll perish alone
