

# Kill the Pain

Firewind

Another night, I can't remember  
I lost my mind and couldn't find a way  
To live my life as a contender  
I never broke the rules, I'd just obey

This is like a never-ending ride  
Many tears I cried into the night  
I can see the devil in disguise

Save me now  
Before I fall into pieces  
Tell me how  
To find a way to kill the pain

I know this feeling won't control me  
There is a light breaking out of my soul  
This emptiness I've left behind me  
All we accept will slowly take a toll

This is like a never-ending ride  
The grimace of despair is my guide  
I can see the devil in disguise

Save me now  
Before I fall into pieces  
Tell me how  
To find a way to kill the pain  
Kill the pain

Save me now  
Before I fall into pieces  
Tell me how  
To find a way  
Save me now  
Before I fall into pieces  
Tell me how  
To find a way to, find a way to  
Kill the pain
