

Overdrive

Firewind

We look into your faces
It's the magic only our hearts know
Though we rocked many places
You carried us through every show
Ohhh

We believe in the power that unites us
Driven by the pride, never-ending ride

We want it, we need it
No regrets at all
There's fire in your eyes
We want it, we need it
Tearing down the wall
We're shifting gear - overdrive

It's a walk on the wire
But the passion saves us from the fall
And the burning desire
For the glory, keeps us standing tall
Ohhh

We believe in the music that unites us
Driven by the pride, never-ending ride

We want it, we need it
No regrets at all
There's fire in your eyes
We want it, we need it
Tearing down the wall
We're shifting gear - overdrive

We believe in the power
Driven by the pride
We believe in the music
Never-ending ride
Overdrive

We want it, we need it
No regrets at all
There's fire in your eyes
We want it, we need it
Tearing down the wall
We're shifting gear

We want it, we need it
No regrets at all
There's fire in your eyes
We want it, we need it
Tearing down the wall
We're shifting gear - overdrive
