# Stand United

**Firewind**

Time and again, we would return
For the unbelievers
Just like in Troy, we will destroy
Tear down the walls
Lesson learned, tide has turned
Time for ascension
Kill the pain, not in vain
We survived it all
So we

Stand united, ignite it
All for one and one for all's the way
Stand united, keep fighting
Or divided we shall fall one day

If instead of hate we all relate
Approach one another
If we don't return, the fire will burn
There's a resolution
Lesson learned, tide has turned
Time for ascension
Break the chain, let us strain
Together we rise
So we

Stand united, ignite it
All for one and one for all's the way
Stand united, keep fighting
Or divided we shall fall one day

Stand, stand, stand
Stand united

All for one and one for all

Stand united, ignite it
All for one and one for all's the way
Stand united, keep fighting
Or divided we shall fall one day

Stand united, ignite it
All for one and one for all's the way
Stand united, stand united
Stand united, keep fighting
Or divided we shall fall one day
