

## Wills of the River

First Aid Kit

And the wills of the river  
Leads you here  
Where the wind it is yielding  
And the light it is clear

To rest upon forever  
Or to live for one more day  
No I won't restrain the morning  
I'll get ready for this spring

Oh see them planets shining  
To the south to the north  
Headed out the west wind  
Going to find myself a home

Where the night it is guarded  
By the shores of the sea  
And the moon it is resting  
While the sun it breaks free

And the world is all alone now  
While it's children still sleep  
Silently
