

## Killing Time

Fischer-Z

Don't take out your hate on me  
Or try to cleanse my family  
I'm just another refugee  
I won't look back now  
Smoke is rising from our house  
You've cut us off and chased us out  
There's nothing left to cry about  
I won't look back now  
How many lives will it take us to be sure  
To recognise it's killing time  
Don't make your mistakes on me  
Your threats, your lies, your perjury  
'Cos I wanna be what I wanna be  
I won't look back now  
Children trapped beneath the stars  
In skeletons of broken cars  
And noone even stops to ask  
I won't look back now  
How many lives will it take us to be sure  
To recognise it's killing time
