

# I Don't Care

Fishbone

When I was young  
My mother told me  
I get on there nerves, I get on there nerves  
When I was young  
My sisters told me  
I make her sick, I make her sick

I told my doctor that I hear voices  
He said, what do they say, what do they say?  
I told my doctor they give me choices  
He said, what are they? what are they?

I'm starting to think that I'm not normal  
And I'm starting to think that be gone crazy

I don't care  
I don't care  
I don't care

And when I grew up  
My boss told me  
That I'm always late, I'm always late  
And when I grew up  
My lover told me  
That I'm not that great, I'm not that great

I told my doctor that I hear voices  
He said, what do they say, what do they say?  
I told my doctor they give me choices  
He said, what are they? what are they?

I'm starting to think that I'm not normal  
And I'm starting to think that be gone crazy but

I don't care  
I don't care  
I don't care

I try to talk about my feelings  
And I wind up with the egg on my face  
I try to dream about the future  
And it feels like I'm running I place  
And I'm left standing here  
In a world that's gone insane

And I don't care!

I don't care  
I don't care  
I don't care
