

Different Kind of Wonderful

Fisher

We never play
Kissy face in front of strangers
And we never run to each other in slow motion
No rolling around on the shore with sand between our toes
But I guess this is

A different kind of wonderful
-we're in love in the real world
It's not what I thought it would be but
I can't let this go
A different kind of happiness
-doesn't get more real than this
It's not what they said it would be but
I can't let this go

I didn't see
Anything in you when we first met
-when I believed I would fall in love at first sight
Night after night we bared our souls over coffee
Now I know I love you

A different kind of wonderful
-we're in love in the real world
It's not what I thought it would be but
I can't let this go
A different kind of blissfulness
-we can't get more real than this
It's not what they said it would be but
I can't let it go

I never saw the fireworks
-the stars didn't fall from the sky
But this is more beautiful than a quick flash
I never saw a rainbow
-the stars didn't fall from the sky
But this is more meaningful than a quick flash
