

## As I Call You Down

Fistful Of Mercy

You love like I love  
You love like I do  
You wish what I wish  
You know what I knew  
I wish I knew you

You see what I see  
I see what we do  
You fall when I fall  
As we both follow through  
As we both follow you

When I fall inside a hole  
That I can't crawl out  
Better give up my control  
As I call you down

As I call you down

You give like I give  
You know how I ache  
We all became so poor  
There's nothing left to take  
I break when you break

You fall like I fall  
As far as I fall  
You call how I call  
We're indivisible  
Inside invisible

When I fall inside a hole  
That I can't crawl out  
Better give up my control  
As I call you down

As I call you down
