

# Good Nights

Fitz and the Tantrums

You asked, "Have you been good?"  
And I lied, you knew that I would  
You're so different, but also exactly  
The same person behind all this acting

It's been a little too long  
Old ties are never undone  
All things end, but here we are beginning  
Breaking bottles, you're laughing at something  
Goddamn, we had

Good nights, good nights, good nights  
Good nights, good nights, good nights

There's so much that we did wrong  
And so much that we did right  
All things end, but here we are beginning  
Breaking bottles, we're laughing at nothing  
Goddamn, we had

Good nights, good nights, good nights  
Good nights, good nights, good nights  
Underneath it all, it was always us  
In and out we fall, I'm still holding those  
Good nights, good nights, good nights, yeah  
Good nights, good nights, good nights

We could pick up where we started  
Back when we both wanted  
Last calls and long summer nights  
You showed up without asking, you're too  
I remember it just like you do

We could be all that we wanted  
Love hard, keep old promises  
Pulse, we're holding on tight

All things end, but here we are beginning  
Breaking bottles, you're laughing at something  
Goddamn, we had

Good nights, good nights, good nights  
Good nights, good nights, good nights  
Underneath it all, it was always us  
In and out we fall, I'm still holding those  
Good nights, good nights, good nights, yeah  
Good nights, good nights, good nights  
Good nights, good nights, good nights, yeah  
Good nights, good nights, good nights
