

I Need Help!

Fitz and the Tantrums

Sometimes I just need a little help
Why do I try to take the world all by myself
I'm asking you please, a little help
Tell me you'll be there when I need somebody else

I need help!
I need help!

Self-efficient, self-reliant
All my life, yeah, I've been trying
To depend on no one else but only me
I got strong and ended up
Believing I was strong enough
Yeah I was young and young is always so naive

When my demons start speaking up
When the bills, they keep adding up
When the tables run out of luck

Sometimes I just need a little help
Why do I try to take the world all by myself
I'm asking you please, a little help
Tell me you'll be there when I need somebody else

I need help!
I need help!

Call me crazy, call me lazy
Been neurotic, sometimes maybe
But the wolves are at my heels this time for real
Call me please and call me soon
'Cause I don't know what I should do
And all my energy is spent just tryna deal

When my demons start speaking up
When the bills, they keep adding up
When the tables run out of luck

Sometimes I just need a little help
Why do I try to take the world all by myself
I'm asking you please, a little help
Tell me you'll be there when I need somebody else

I need help!
I need help!
I need help!
I need help!

When my demons start speaking up
When the bills, they keep adding up
When the tables run out of luck

Sometimes I just need a little help
Why do I try to take the world all by myself
I'm asking you please, a little help
Tell me you'll be there when I need somebody else

I need help!
I need help!
I need help!
I need help!
I need help!
