

Motion

Fitz and the Tantrums

Overstaying weeks
I've been getting in my own way
Skin of my teeth
No, there ain't no stopping this train

Get me out my head, I could use some help
Tripping 'round the sun, time to cut and run
Turn the rhythm up, I can't get enough
I'm down for the rush

Can you feel the motion?
Can you feel it?
Can you feel the motion?
Can you feel it?
C-c-c-can you feel it?
Tell me, baby, can you feel it?

So what you think?
Telling you it's all worth the wait
Just let it be
I know the best way to escape

Get me out my head, I could use some help
Tripping 'round the sun, time to cut and run
Turn the rhythm up, I can't get enough
I'm down for the rush

Can you feel the motion?
Can you feel it?
But can you feel the motion?
Can you feel it?
C-c-c-can you feel it?
Tell me, baby, can you feel it?

C-c-c-can you feel it?

Let it roll out, jumping on my wave
Everything coming over me
Floating me up into outer space
Can you feel it?
Can you feel the motion?

But can you feel the motion?
Can you feel it?
C-c-c-can you feel it?
Tell me, baby, can you feel it?
